Re: Docket 2005-385-E Order No. 2006-680

Dear Commission members,

Please pass regulations offering net-metering to South Carolina residential customers. Purchasing green electricity harnessed by our citizens would diminish utilization of fossil fuels and minimize our impact on global warming, even as it could create a market for solar and wind energy product manufacturing in South Carolina.

Thank you for your consideration.

Regards,

Katherine Lundy, PhD
